Special Goshuin Temple Seal for Autumn Night Viewing

Founded in 874 by Shobo, a disciple of one of Kukai's disciples, Daigoji Temple has extensive grounds rich in nature across Mount Daigo. A UNESCO World Heritage Site, the temple preserves more than 100,000 cultural treasures passed down through the centuries. During the autumn night viewing, the temple complex is illuminated amid vibrant autumn foliage, including Bentendō Hall and the areas surrounding the Five-storied Pagoda and Kondō (Main Hall), both designated National Treasures. Particularly enchanting is the scene at Bentendō Hall, where the autumn leaves surrounding the pond and the vermilion hall are reflected in the water as if in a mirror. Come enjoy the autumn colors of Daigoji that Hideyoshi himself may have dreamed of seeing.
